

Climatex® LifeguardFR™ Vivo | Climatex

Launched in **2009**
Architonic id **1157475**

Climatex upholstery fabrics fulfill the highest expectations with regard to well-being, beauty, safety, and longevity. They are the result of intelligent product design. They comply with the principles of ecoeffectiveness and are biologically regenerative.

Cooling, Moisture-regulating, Warmth-reflecting, Warmth-regulating

Climatex® LifeguardFR™ key advantages:

- Climate-controlled seating, dry seat surfaces even after prolonged seating periods
- Ingenious moisture management
- Well-balanced heat-retention
- Excellent human-ecologically
- Exclusive and renewable raw materials, scientifically proven quality
- Permanent flame-retardant because of the fibre integrated flame retardant
- All dyestuffs and chemicals are biodegradable
- Cradle to Cradle gold certified
- Environmentally friendly with high percentage of renewable energies
- Hard-wearing and easy to care for
- excellent for contract and transportation applications

Product specification:

Composition

60% WV, 40% redesigned Lenzing FR™

Width

138cm, useable width 136cm

Weight

485g/lfm, variance tolerance +/-3%

Technology:

Cradle to Cradle biocycle Jacquard fabric

Abrasion resistance ISO 12947-2

5-years guarantee on fabric breakage due to abrasion, conditions see www.climatex.com

Pilling values ISO12945-2

Pilling score 4-5 (good)

Colorfastness to crocking ISO 105/X12

Dry score 4

Wet score 4

Colorfastness to perspiration ISO 105/E04

Alkaline score 4

Acid score 4

Lightfastness ISO 105/B02

Score 5

Fire standards

EN 1021 Part 1+2, M2

EN 11925-2, E

ÖNORM B 3825, B1

BS 5852 P2, Crib 5

NF P 92503, M2

UNI 8456, UNI 9174, Classe 1

California TB 117, Class 1

FAR/JAR 25.853

Care

Spot-clean only using a moist sponge, or vacuum
or brush gently
